DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 4, it is unclear what is meant by the recited "upon a maximum dwell being attained". How does dwell occur? What element(s) has/have a dwell?

Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: (1) the omitted structural relationship between the claimed elements that causes the third gear to move along the slot between the first position and the second position. What structure or structural relationship allows this movement of the third gear to occur?

Allowable Subject Matter

2. Claims 1-3, 5-14 and 16-25 are allowed.
